What is Equipoise (Boldenone Undecylenate) Equipoise(Boldenone Undecylenate) is testosterone derived anabolic-androgen steroid that has been in the market since the 1940s. There a number of Boldenone esters including Boldenone Cypionate, Boldenone Acetate. Upon introduction, equipoise was only used by veterinarians until later in the 1950s when Ciba introduced its human grade.

Boldenone Undecylenate can help with this as a means of helping the athlete to enhance their overall performance and abilities. Keep in mind, it can be detected in the body for a very long time so you have to time using it just right. It can show up on a drug test up to 5 months after the last injection.
