WHO recommends artemisinin-based

combination therapies (ACTs) for the treatment of uncomplicated malaria caused by the *P. falciparum* parasite. By combining 2 active ingredients with different mechanisms of action, ACTs are the most effective antimalarial medicines available today. WHO currently recommends 5 ACTs for use against *P. falciparum* malaria. The choice of ACT should be based on the results of therapeutic efficacy studies against local strains of *P. falciparum* malaria.

For a while, British Dragon completely vanished from the scene. It was supposedly being restructured, and today has what appears to be a legitimate website (www.britishdragon.com) which displays their pharmaceutical grade steroids.

This review for the Test 400 that I picked up in the penny promo DragonPharma.net had a few months back. I had been checking Dragon Pharma out and wanted to give them a go but hadn't and I was lucky enough to get in on there promo this was my chance. T/A was close to two weeks order was pack well they even sent the box to go with the vial.
