It was a great time getting to work with my man Bryant today! He struggled with some pretty severe injuries in the past, but refuses to let those setbacks define him and his goals?? With a great amount of muscle mass, a consistent routine, and a big work ethic, Bryant will be reaching his goals in no time, and I am honored to be able to help him along the way ??

vaccine will not decrease immunity, a spike protein of virus is present in vaccine which triggers the immune response thinking virus is attacked to the body due to which people Experience fever and other symptoms but after weeks body would be ready to fight covid if real virus attacks and this is the reason why 2nd dose is given after 21 days so that immune response get's a boost and produces more antibodies thinking that body is attacked frequently by the virus !!
