Alpha-Pharma Rexobol (50 pills x 10mg) is a popular brand name for the anabolic steroid Stanozolol. This compound is a derivative of dihydrotestosterone (DHT), although its activity is much milder than this androgen in nature. It is technically classified as an anabolic steroid, shown to exhibit a slightly greater ...

Episode 327 is a normal Q&A with Mike where we cover a few topics but the ending topic of Trestalone is where the real magic happens! Mike brings up a long term side effect that we've both seen CONSISTENTLY over time with some individuals that respond poorly to this compound and is not something ever discussed online (at least to our knowledge.) Get ready for this one guys because this was a pretty BIG episode for us! [full report](#)

Oxanabol is indicated for treatment of Turner's syndrome, chronic infections and recovery after extensive surgery.

Alpha Pharma Rexobol 10mg. Presentation : Each carton contains 50 tablets of 10mg per tablet. Stanozolol is a dihydrotestosterone (DHT) derived anabolic androgenic steroid, or more specifically a structurally altered form. The drug has a high oral bioavailability since it is an 17-Alpha-Alkylated steroid, meaning that it has been altered at the ...
