Testosterone is a naturally occurring sex hormone produced in a man's testicles. Small amounts of testosterone are also produced in a woman's ovaries and adrenal system. Testosterone Enanthate is used in men and boys to treat conditions caused by a lack of this hormone, such as delayed puberty, impotence, or other hormonal imbalances. This medicine is not for use in treating low testosterone ...

Pretty successful deadlift session today, hitting another big rep PB. These felt a lot harder than they looked to be honest. I'm really keen to have a crack next week and see where I am at before my comp. The way my training has been though I have no doubt that I'll blitz 700kg total! @obsidian_ ammonia dragging me across the line on all my big lifts as ever
