Allergies to growth hormone or other ingredients in Serostim [®] vials What is the most important information I need to know about Serostim [®] ? For patients with critical illness caused by certain types of heart or stomach surgery, serious injury or a sudden and severe breathing problem, there was an increase in death in those treated with Serostim [®] compared to those patients not treated with Serostim [®] (42% vs. 19%). Serostim is a form of human growth hormone important for the growth of bones and muscles. Serostim is used in adults to prevent severe weight loss related to AIDS. Serostim may also be used for purposes not listed in this medication guide. #bottle #oldbottle #oldbottles #vintage

HGH Profile

Serostim is the only Human Growth Hormone Medical Treatment approved by the FDA for the treatment of muscle wasting associated with the HIV Virus. Serostim has been shown to increase muscle mass and stabilize and increase healthy weight while also reducing fatigue and increasing endurance for physical activity. SEROSTIM is a human growth hormone (hGH) produced by recombinant DNA technology. SEROSTIM has 191 amino acid residues and a molecular weight of 22,125 daltons. Its amino acid sequence and structure are identical to the dominant form of human pituitary growth hormone.

As far as is known, Serostim contains human growth hormone. It is used to stabilize weight in patients with AIDS. At the moment, there is no other therapy in the late stages of the disease with a similar effect on body weight. The advantage of Serostim is that this drug leads to an increase in the fat-free mass. Human Growth Hormone (Trade Names: Genotropin®, Humatrope®, Norditropin®, Nutropin®, Saizen®, Serostim®) September 2019 . Introduction: Human growth hormone(hGH) is a naturally occurring polypeptide hormone secreted by pituitary gland and is the essential for body growth. rection of hGH increases Daily sec
